

# U.S. ARMY CHIEF URGES IMMEDIATE PROGRAM

**MINISTER SAYS  
JAPAN IS TOO  
BUSY FOR WAR**

No Intention of Hostilities  
With Any Nation Says  
Hon. I. Tokugawa

VANCOUVER, Nov. 27—Japan is more concerned in doing a job of constructive business in Manchuria than in fighting, and has no quarrel with Russia—or with United States, in the opinion of Hon. Inaya Tokugawa, Japanese minister to Canada.

The Japanese diplomat arrived here Saturday night with his daughter, Miss Toyoko Togawa, en route to Ottawa, where he will resume his duties after a six-month leave of absence.

"Not only have we no intention of attacking Russia, but I think I can speak not only for the present government, but the Japanese people, but also for all who regarded the present state of Manchukuo as a buffer state between Japan and Russia, a sort of safety valve."

The minister admitted he is anxious to be settled down between Japan and Russia, but they were, he said, question of business rather than of war, and he was interested in a business-like way in which world would have no part.

Jap minister, who said, would like to promote closer relations with the object of working together for the welfare of the peace in Far East, Japan was too busy helping Manchukuo to get into a conflict with Russia, and was busy with its own particular problems to even consider hostilities, he thought.

He expressed the greetings of his people to Canadians and wished to take this opportunity to express appreciation of Japan for the sympathy and dignity with which Canada treated him during his illness in Victoria of Dr. Inayi Nitobe, Japanese statesman and author.

The minister left last night for Victoria. He will return here Tuesday evening or Wednesday for Ottawa, making only one stop enroute at Edmonton.

**DUCE PLANS  
SHAKE-UP IN  
AIR FORCES**

Balbo's Appointees Slated  
For Replacement by  
New Chief

ROME, Nov. 27—A sweeping reorganization of the air corps personnel under the new air minister, Dino Bruson, has been completed in authoritative circles last night to be imminent.

The elimination of spectacular flights, such as the journey of an Italian aviator from Rome to the Ile de Ballo to North America and back last summer, also was said to be imminent.

Money which would be used in such endeavours will henceforth be applied to the maintenance of bases and training throughout the service.

The replacement persons will include General of General Aldo Pellegrini, second in command during the Atlantic raid, and the able representative of Col. Cesare Longo, third in command of the Italian air force, and General Vincenzo Lombard and Pietro Ozzoli.

General Pellegrini is now in charge of the ministry bureau dealing with foreign attacks.

Many of those who now consider their present high posts to Balbo's personal approval, however, were demoted, third tiered. It was understood, when II Duce placed it in effect, the old army system of protection by service priority.

**CAREFUL DRIVER  
NOT A ROADHOG**

London, Nov. 27.—It is a motorist who drives slowly, not a fast driver, who is guilty of "wilfully obstructing the free passage of a crowd," "leaving his car for a long and unnecessary time." This question was argued at York Quarter sessions.

Edmund Blackburn of Shawell, Leeds, appealed successfully against a conviction for fine and a shilling imposed by the York magistrate for leaving his car for a long and unnecessary time. The question alleged that he drove slowly through Coney street, and kept to the sidewalk, so as to thereby preventing a police car containing an inspector and three constables from passing.

Blackburn said the street was crowded, and he had to travel slowly, and that he did not intend to avoid pedestrians, who overflowed from the sidewalk into the roadway.

The recorder, N. L. Macaskie, said Blackburn, merely because he was too slow, was guilty of "wilfully obstructing the free passage of a crowd." "Leave your car for a long and unnecessary time," the magistrate was told.

**Monetary Conference  
Promises Reforms**

SAN FRANCISCO, Nov. 27—A conference of government, bank, trust, and insurance companies to discuss control and operation of the monetary system, as distinguished from the banking and financial institutions, was disclosed Saturday by the United States monetary conference, a union of many organizations.

HOLLYWOOD IS KEEN FOR GAY NINETY SPIRIT

Pictures Enthusiastically Endorse Mauve Age Styles

Two views of Dorothy Mackail in costumes inspired by fashion of the nineties for seen in her latest picture.

Whatever influences the styles of the early nineties—"mauve dresses"—has had on our everyday garments—and it seems to have considerable—they appear in their gayest and most sensational reincarnation.

Locally, there is no greater of Dorothy Mackail in the thick sleeve elaboration could go little further than is shown in the puffed and gathered elbow-length sleeves

of the frock she is wearing. The dropped shoulder line is used in this frock, allowing the sleeves to drop from the elbow, and leaving the shoulder bare.

The same dropped shoulder line is used in the other frock, which is

black velvet with tulip ruffles and here the huge hat of the period is added and placed at the jaunty angle.

The tiny silhouettes before

you are two authentic reproductions of that same mauve decade.

### Car Upholstery Fire Extinguished

Sooke, Nov. 27—A safety car parked near the corner of 101 avenue and 105 street, caught the attention of Constable Val Taylor as he was walking home shortly after midnight Sunday. Taylor found the car doors locked but on knocking at the door of a nearby house found Harry Loyer, 3871 106a Avenue, who had been visiting a visitor. Between them Loyer and Taylor extinguished the fire, which was burning in the car upholstery.

A minor disaster was probably averted when the Buick was lifted off a traverse Point sandbar with only a dozen or so feet of water above the car.

The car was en route to the Canadian Railway. The train was on exhibition throughout Canada and the United States, and was the major attraction at the Chicago

Century of Progress Exposition.

### JUST FORGET IT PRESSES BARONET

LONDON, Nov. 27.—Sir Benjamin Broome, who is believed to be the oldest baronet in the United Kingdom, refused to be congratulated on his 90th birthday yesterday, and did not like to be reminded of his age, he said. "They make me feel too old," he said. So when his son, Sir John, 32nd Baronet, and his daughter, Mrs. Broome, the eldest being the wife of Sir John, came to see him yesterday, he gave up the title of "Baronet" entirely.

Broome, who had a distinguished military career, lost both his arms in the Sikhs Exhibition in 1848, and was given a pension of \$37,000 yearly.

There was no indication, however, that Russia would be ready to give him a pension, as he had not yet reached the age of 90.

Wheat export quotas for the current year were fixed at 700,000,000 bushels, Argentina, 110,000,000 bushels; Uruguay, 47,000,000.

At present, wheat is being exported at a rate of 100,000,000 bushels a week.

EDMONTON BULLETIN IS FOR IT!

MONDAY, NOVEMBER 27

### EVENTUALLY, WHY NOT NOW?

Delegates to the convention of the Alberta Association of Municipal districts passed a resolution urging the Dominion Government to assume the full cost of giving direct relief.

City taxpayers will welcome that endorsement of a claim that they feel to be both fair and necessary. The municipal districts have not been as hard hit by relief costs as the cities. This expression of opinion is on that account more, rather than less, significant.

The probability is that sooner or later the Dominion will have to assume both the full cost of further direct relief and also the share which has hitherto been assumed by the cities. For the cities have not been really paying their share; they have capitalized the amount and passed it along for future consideration. The havoc that has been wrought in the taxpayer's assets by the depression leaves little prospect that he will be able to make up these arrears together with a one-third share of future relief costs.

### A ONE WAY RULE

The Canadian dollar is rated three cents higher than the United States dollar. Canadians can therefore buy \$103 worth of goods in the United States for \$100 in Canadian money.

But the way we do them any good. The British expression to Tibet has aroused the suspicions of Russia.

Chief Justice Sifton gave judgment that the practice of selling unbranded cattle by auction must stop.

The Toronto exhibition had a successful year, with a surplus of \$5,200.

Calgary city council passed a bylaw to install a municipal electric light system. A bylaw for \$9,000 will be submitted to the ratepayers.

their currencies. They didn't do anything of the kind; inflation with them was only a trick to pay off war debt. Newfoundland now provided an example to a country that had been far better off by issuing interest-bearing bonds. Germany and France at least "inflated" themselves some way out of debt. Newfoundland has "inflated" itself into debt, so far in that its tax-payers are to be disfranchised en masse by "printing" money, but by printing bonds.

Canadians should ponder that fact. They are being told insistently that if the parliament of Canada should start issuing money to pay for public works the country would be in straight trouble, but that it is entirely safe for parliament to issue interest-bearing bonds. Somebody should try to tell that to the Newfoundlanders. They thought the same thing, and have landed them where they are.

Of course a country could be ruined by over-inflation. But it can also be ruined, and more quickly, by an issue of interest-bearing bonds. And there is no patent device that can save a country from the one evil or the other. The common sense of parliament and the doctors of law say that you can control either the issue of money or the issue of bonds. There is no automatic safeguard, and there can be none, against the inflation of bonded indebtedness. Newfoundland illustrates that the taxpayers of the country, buying out \$1,000,000 every day in bond interest, can appreciate the fact, and the reason for Newfoundland's predicament.

### Forty Years Ago

From the files of the Edmonton Bulletin

The election of Joseph Martin in the Winnipeg by-election is an event in politics, the importance of which it would be difficult to overestimate.

It is due to the personal influence of a steam fire engine by the name of Martin that the town has not a sufficient water supply to enable the engine to give good service. The Leader evidently does not take all the features of the case. The fire engine has had a very slight application of the chemical—and other—compound known as Regina water would be a very vigorous fire indeed. It is of a kind that a very little would go a long way.

Lieut. Governor MacKenzie wired to Dr. Nansen, the celebrated polar Danish explorer, last spring, advising him to make his start for the north pole from the mouth of the Mackenzie.

Lieut. Governor MacKenzie arrived in Regina on Saturday and was tendered a reception by the Mayor and citizens.

The Regina police department has been informed that a number of gas wells in the vicinity of Port Cobden, which have been exhausted, are now flowing oil.

### THIRTY YEARS AGO

Major-General Sir George Ross, K.D., Regd. Inf.

The British expedition to Tibet has aroused the suspicions of Russia.

Chief Justice Sifton gave judgment that the practice of selling unbranded cattle by auction must stop.

The Toronto exhibition had a successful year, with a surplus of \$5,200.

Calgary city council passed a bylaw to install a municipal electric light system. A bylaw for \$9,000 will be submitted to the ratepayers.

### TWENTY YEARS AGO

In Texas, Texan's own army is said to be making headway in the Mexican government forces in the Saragossa district.

London. General Botha, premier of South Africa, in a trenchant speech upon the subject of India in Natal, made it clear that South Africa would not be taken as a pawn in the hands of the other Dominions and that interference on the part of the Viceroy in behalf of the Indians would not be tolerated.

Captain John Lind, Lieutenant Wilson, representative of the Canadian government, left battle-horse here and well pleased to Tangier, following the refusal of Huerta to resign as Washington demanded.

### TEN YEARS AGO

New York. Senator Schommer "Tommy" was seized by Coast Guards today after a sharp engagement off Seabright, N.J., and in his hold was found "Rummy Bill" McCoy, characterized by government agents as the run-away.

London. Doctor Albert has been called upon to form a new government for Germany.

Vancouver. A Royal Commission is sitting here into allegations that the Royal North West Mountain Police have been criminally concerned in the carrying on of the drug traffic.

### Poems That Live

—NAN RUTZ YOUR  
Nay but who do not love her,  
Is she not gold, my mistress?  
Carns caught—truth speak—true—she her?

Augh like this tree, see, and this tree.  
And that last fairest tree of all,  
So fair, see, are I let fall!

Because you spend your lives in praising;

To praise you search the wide world over:

Thy next will witness, calmly gazing,

It casts bold angles—truth—see—she her?

Again this tree, and this I to see,

But cannot praise, I love so much.

—Robert Browning.

MUNDAY FRUITS OF THE EARTH

In view of the destruction of agricultural products now being sought by civilized governments as part of their national policy it may be instructive to make the following quotation from the Prayer Book as having another bearing on the subject. The application against scarcity makes that request:

"Increase the fruits of the earth by thy heavenly benediction; and grant that we, through thy grace, may use the same, to the glory and the relief of those that are needy, and our own comfort."

How is the destruction of substance going to be squared with that?—Winnipeg Free Press.

## "An enemy hath done this." —MATT. 13:28.

Tomorrow's text will be selected by Rev. F. Antrobus, Baptist Church, Peace River.

### The Passing Show

by G. COOPER

There seems to be no pleasing some people. Last Wednesday when the Canadian Radio Commission gave a concert in honor of a Roman Catholic saint a Protestant section was peevish. Two nights ago the Protestant section complained that the C. R. C. network to deliver an address explaining that the Canadians can't get any more currency because it would reduce the high purchasing power of the present dead dollar, the Liberals professed to be annoyed.

They had a little more penetration in their thinking that a group of malcontents would have felt pained at the uses of the C. R. C. network is being put.

The only chap I felt really sorry for was an old friend who had invited me to listen on his radio. When I went to his house he informed his audience that they were to hear "fine old English song 'Where my Caravan has Rested'; it was brightened up. And then the vocalist sang a fine translation of the words.

\* \* \*

Young German Communists in Canada had selected a date for a meeting in honor of Hans Frederick Kist, who was deported from Canada nearly a year ago, and is reported dead as the result of tortures inflicted in a Nazi prison camp.

His guards are said to have dropped heavy weights on his body during the ceremony.

Kist was a fireman on the steamer R. C. Nykirk from Japan and deserted the vessel at Vancouver, where he sold Communist papers on the streets and worked a Lulu Island farm. He met a Russian girl at the coast. They had taken out a license to marry, but the church would not have it, so the ceremony had to be performed. In due course Kist was deported from Halifax with seven other Communists charged with contravention of Section 41 of the Criminal Code, which forbids the overthrow of the government. Kist had been serving a term of 18 months when he died.

It is the memory of Roosevelt leaves him unMOVED.

Some of the headline writers, noting that Dr. Sprague was named as "former adviser to the King of England," attributed to him captions as "Ex-Adviser of England Man." It is true, but a very misleading sense.

Dr. Sprague is an American and a graduate of Harvard. Ever since his graduation at the age of 24—over forty years ago—he has been on the teaching staff of Harvard. Oddly enough, President Roosevelt has been a brief student of Prof. Sprague's.

When the international economic situation showed signs of cracking up in 1930, Dr. Sprague, who had previously acted as adviser to the Japanese government, was called to the Bank of England.

Last spring he was appointed adviser to the U.S. Treasury. His chief complaint is that he hasn't been asked to do any advising.

Dr. Sprague believes in the equilibrium school. He thinks the troubles of the age are too deeply seated to be affected by cheap money or the "commodity dollar." At the League of Nations Gold Conference and again before the Bank of International Settlements he has maintained that the monetary system must be based on the gold standard. He thinks it is madness for a country to voluntarily devalue its currency units, pointing out that when France devalued the franc it gained five-tenths of its former value.

Whether Dr. Sprague is right, or whether Roosevelt and Prof. Warren are right, time alone can tell. It was men of Prof. Sprague's sense who said that Roosevelt must be much to each nation as that the monetary system was interfered with grass would grow on the streets of American cities, towns and within a year. The monetary system has already been radically interfered with, yet there is less grain growing on the streets today than ever before.

## Opening British Gates For Trade Interchange

By R. T. ELLIOT, K.C.

British trade agreements made in 1933 have gone a long way towards re-establishing the British export and import trades on a profitable basis. With the British tariff is an avenue to trade agreements; not a method of conveying vested rights to exact protected prices from the consumer.

Coal, as the principal export in terms of labour and weight, has been given especial attention. The following agreements to take definite percentages of total coal imports from Britain have been arrived at in 1933:

Denmark; increased from 44% to 50%.

Iceland; increased from 55% to 77%.

Norway; increased from 39% to 70%.

Sweden; increased from 24% to 47%.

Finland; increased from 30% to 75%.

Germany has also increased the import allowance of certain selected grades of coal per annum by one million tons.

Trade conditions between Great Britain and the Argentine have been substantially safeguarded by a trade agreement; and the terms of British investors locked up in Argentina owing to exchange regulations and differences making export of money impossible, have been made malleable by an agreement for the issue of Argentine government bonds which will be exchanged for British subjects' money in Argentina on request. These bonds can be sent to London and traded on the market there. The effect, although indirect, is to largely increase the trading capital available for use in British and Argentine commerce.

The Prime Minister of Australia has announced that the Australian Government is now ready to enter into the opening up and development of the Northern Australian Area,—of some one million square miles,—to an English Chartered Company to be formed in London and controlled and operated from London. There is little doubt that this offer will be accepted and another important outlet for British commerce created.

The visit of a committee of Lancashire cotton magnates to India has resulted in a working agreement with the cotton companies of India; and stabilization of the cotton trade in India on a reasonably proportionate basis seems certain. General trade conditions between Britain and India have improved greatly and been placed on a more friendly basis during 1933; the probabilities of normal conditions and much commercial volume are great.

The British are doing everything to attract trade, and to make the interchange of commerce easy and profitable. The results up to the present time are that Great Britain has again become the strongest national commercial force in the world.

Instead of following this course of proven efficiency, our Canadian leaders have adopted the course of bush and mystery; the course of the United States must be watched and waited for; international trade conditions must not be discussed lest damage be done; and tariff rates must be kept propped up into the sky higher than the Minarets of Constantinople. Anyone strongly desirous of doing business is referred to the Tariff Board, where he can submit himself to questionnaires, and to cross-examination by his competitors, and finally ascertain that the Board only makes recommendations to the powers that be.

Surely we are earning our own commercial distress in Canada,—since we insist on sowing the seeds of distress and nothing else.

## NEW GERMAN HYMNAL HURLS DEFIANCE AT MANY NATIONS

Continued from Page 1

the Storm and Battle Hymns here in Germany, and day when the German Chancellor in his speech explaining the Reich's withdrawal from the league, assured the world that Germany would be nothing but peace.

Here are a few translations of the hymns which have been issued by the Nazis. In the first, Hitler's leadership is to be used to "drive the road free to us":

"The Hour of Revenge." "Who wants to join us in battle under Hitler's leadership? Let us drive the road free to us! The road is free to us."

When the hand grenade bursts our hearts are filled with the spirit of the opening hymn. The following is addressed to Denmark on the North Sea. Wait for the dawn and the sun will rise.

"Come back, O Austria to the bosom of your old fatherland. That same day may arise from the Rhine in the Danube: Death and destruction will be upon us."

AGAINST MANY NATIONS

To the east it addresses the following song: "Beat the drums best for us, we are the ones who fight against Russia. We are going to Russia to measure our strength in the battle of the plains, come next with a hymn to the capital of Alsace-Lorraine." "O Austria! O Austria! Your heart is heavy when I see the French flag float from the plains."

"We swear to you, we remain loyal to you until death, until the last drop of blood in our veins."

We are millions and millions who are pushed by misery to the east, to the west, to the north, many down with the "Diktat" of Versailles."

"The Brown Army of Hitler. We have the coashed socialist bones." The German land is torn to the ground, let the Jew run off to Palestine if he still can."

"THE HOUR OF REVENGE." "One goes to France again: Watch out you Frenchmen, the world will not go down in the air and the train will go down in the river. You shall not have our

## BLIND MAYOR LEADS CITY UP TO RECOVERY

A blind man well lead a city of 23,000 up the rocky path to recovery. Alliance, O. voters having rejected a \$100,000 general, as mayor Alard, hardware merchant, now 83, was a top student in the盲人 college. Blind in one eye for years, a fall in April brought total loss of sight.

## RUSSIA MAY JOIN PACT TO BOOST WHEAT

### Litvinoff Discussed Subject With Roosevelt at Washington

LONDON, Nov. 27.—The chances of Soviet Russia's joining an international pact to boost the price of wheat were discussed yesterday by the delegates here at the eve of the annual meeting of the world wheat advisory committee.

It was learned administratively that the Soviet Union had been brought up in the conversations between Maxim Litvinoff and President Roosevelt.

This fact is believed likely to exert a powerful influence here.

The United States delegates to the wheat conference, led by Senator Robert W. Bingham, left Washington before the start of the annual meeting.

Taking the combined government delegation, the Americans said:

"Both these records indicate that the NRA program is keeping the wheat situation under better control than is usual at this time of October to invoice."

Layoffs: 75,000 men in farms, 43,000 in lumber, 12,000 in railroads, 10,000 in hotels and laundries.

New employment: 125,000 in flour mills, 100,000 in meat packing plants, 80,000 in other industries.

Taking the combined government

delegation, the Americans said:

"Both these records indicate that the NRA program is keeping the wheat situation under better control than is usual at this time of October to invoice."

# ARGONAUTS CAPTURE BIG FOUR GRIDIRON CROWN

## ONTARIO HOCKEY ASSOCIATION MAKE DRASIC RULE CHANGE

TORONTO, Nov. 27.—The most drastic change in playing rules made in the Ontario Hockey Association for many years was put into effect yesterday afternoon Saturday, when it was decided to limit all games to 30 minutes overtime. In all playoff games where goals count on the round, however, the second games will be played to a finish.

This wiped out the 30-minute overtime rule in force for the last 20 years.

## Cooney Weiland Goes to Detroit Team in Big National League Deal

### DATS PANS by BILL LEWIS

Announcement from the secretary of the Southern Alberta Amateur Hockey Association is not likely to consider joining Edmonton and Drumbeiler in an intercity amateur league this winter will not take the official definite action by local officials . . . There is still a chance that the team in the south may look favorably upon the proposal because that was where it originated. A final decision on the effort will be made to have it become a reality. . . An intercity circuit looks like the only way out for both teams and that should not王者 in the sponge in this matter if there is any way to avoid it . . .

Calgary is in the unfortunate position this year whereby its amateur ranks have been greatly depleted by demands for talent from Britain. Combs will . . . It may, however, have enough material for one good senior club and that would fit in just right with a club from Drumbeiler and two from Edmonton . . .

Eskimos make their fourth start of the Northwest League season in Portland this evening; determine whether they can win the column for the first time. They've lost three in a row but you can be sure Manager Duke Keats will have his players fight for victory and make every job as good as he can. He has the Buckaroos in the Rose City tonight. . . The chance to get into condition they needed in their first few games has been afforded them and from now on the Eskimo skipper demand results . . .

The Westerners are showing some good play, players are point the National League these days . . . Not on the heels of the news Edmonton's Johnny Sheppard had bought . . . Last year, Sheppard was in Chicago comes a story that brilliant Cooney Weiland goes from Ottawa Senators to Detroit for Carl Voss and cash.

Sheppard's move from Boston to Chicago should add some needed scoring power to the Blackhawk . . . Last year, Sheppard was in Boston and has the punch on the attack that should be highly useful to any major league club . . .

Toronto Argos Saturday took a step nearer to their goal of a Canadian football title when they beat Montreal Winged Wheelers to capture the Red Fox. Unquestionably their team is in top form and they should have a great deal of trouble against Winnipeg in the Dominion semi-final coming week-end.

**Hamilton Cubs Enter In Finals**

ST. CATHERINES, Ont., Nov. 27.—Hamilton Cubs, who were in the final of the junior Ontario Rugby Football Union Saturday when they had to settle for a 4-2 trim wining here.

### WINGS TRADE VOSS, MONEY TO SENATORS

Ottawa Making Effort to Rebuild Club, Says President Ahearn

OTTAWA, Nov. 27—Cooney Weiland, Ottawa's first football coach and playmaking center of the Ottawa Senators' first formal team, has been traded to Detroit. Red Wings Sunday night for Carl Voss and cash, it was announced by T. F. Ahearn, president of the Local National Hockey League.

Weiland will report to Ottawa's Adams in time to play against Chicago in Detroit's West Coast Thursday. Voss was a holdout at the first of the season and so far his play has been

After breaking into hockey with the Ottawa Senators, Voss jumped into pro ranks with Minnesota in the American Association. Art Ross took him and Mr. Donald Ross, manager of the Boston Bruins, signed him for this season. He was a holdout at the first of the season and so far his play has been

He was traded to Detroit before the Western Canada Rugby Union.

Following reports from Calgary the protest was filed yesterday. Mr. David telephoned M. L. Lieberman, Edmonton, president of the W.C.R.U. Summarizing later, Mr. Donald Ross, manager of the Bruins as saying no decision had yet been made but that Voss was not one expected before Tuesday.

The winning team, defeated by the Westerners, the only team to have won the Eastern Canadian titles, protested ruling when they claimed a touchdown had been scored.

### BUFFALO TIES WITH SYRACUSE

After leading by a scant margin at the close of the first and third periods, the boys' athletic group were forced to bow before the famous footballers of the Harvard and basketball teams of the First Presbyterian Church. Young People's Association hoop leaders in a game played recently. Referee George Cook, with Wally Young, who had been suspended in the first quarter, presided.

Bob Simoni, secretary of the Southern Alberta Amateur Hockey League, stated that his organization will be represented in Saturday's game.

It is felt that many players have gone to Nelson and Rosedale, Calgary, would not be able to get to the game on account of the ice strength enough to break up the spectators.

Many received letters from Edmonton suggesting the formation of a football club outside of advertising the various clubs no action has been taken.

Mr. O'Neill from Calgary made his intentions known to the club and new faces in the Olympic lineup were Ernie Swanson, former pro player and George George, who played for St. Louis last year.

ONLY 3 REMAIN FOR GRID TITLE

Three Eastern teams are to compete in the Hamilton Cup. Sarnia Cedars, who have played some good football, are the best chance to capture the Red Fox. Unquestionably their team is in top form and they should have a great deal of trouble against Winnipeg in the Dominion semi-final coming week-end.

### New Haven Blanks Philadelphia 2-0

NEW HAVEN, Conn., Nov. 27.—New Haven has moved from the shadow first place in Providence in the Canadian-American Hockey League. Sunday night it overcame the Philadelphia Arrows in less than five minutes of the first period. Carl Gardner, with a goal and a assist, started with a fast start and Wilson, sank the first goal.

### JUNIOR GRID HEADS MAKE NO DECISION

Protest Not Thrown Out States Chief—Expect Decision Tuesday

WINNIPEG, Nov. 27—No decision on the protest of Winnipeg Deer Lodge against Calgary Almonte's victory in the national football championship final has been reached.

It was held Sunday night by the Western Canadian Rugby Union.

Following reports from Calgary the protest was filed yesterday. Mr. David telephoned M. L. Lieberman, Edmonton, president of the W.C.R.U. Summarizing later, Mr. Donald Ross, manager of the Bruins as saying no decision had yet been made but that Voss was not one expected before Tuesday.

The winning team, defeated by the Westerners, the only team to have won the Eastern Canadian titles, protested ruling when they claimed a touchdown had been scored.

### FEMININE TEAM WIN OVER BOYS

SECRETARY SAYS SOUTH UNLIKELY TO JOIN LEAGUE

CALGARY, Nov. 27—Formation of an intercity hockey league to include two Edmonton teams and one each from Calgary and Drumbeiler will not likely materialize for the 1934 season.

Bob Simoni, secretary of the Southern Alberta Amateur Hockey League, stated that his organization will be represented in Saturday's game.

It is felt that many players have gone to Nelson and Rosedale, Calgary, would not be able to get to the game on account of the ice strength enough to break up the spectators.

Many received letters from Edmonton suggesting the formation of a football club outside of advertising the various clubs no action has been taken.

## WINNIPES GO EAST TOMORROW FOR CANADIAN GRID SEMI-FINAL

WINNIPEG, Nov. 27—Winnipex, Western Canada rugby champions, will leave here Tuesday night to meet Toronto Argonauts, the champion of the eastern interprovincial title holders. The Canadian semi-final will be played at Toronto Saturday, Nov. 28. Joe Ryan, manager of the Winnipex, announced last night the team will arrive in Toronto Thursday morning, arrange a practice for the same afternoon and another Friday afternoon.

## Cooney Weiland Goes to Detroit Team in Big National League Deal

### Double Dynamite

It's a case of a double shot of dynamite when these gridiron stars, Tommie Moore, left, and Tony Moore go into action. They've started to score for Terrier Argonauts and Saturday they gave their team the championship of the Big Four football Union when each ploughed over for a touchdown against the Montreal Winged

Wheeler.

Each game with a first goal, the

Winnipex, and Wilson, sank the first goal.

With a Canadian seeing his first game of American football, the accompanying side-shows were also a feature of the game and comic drama, but the powerful contest of the gridiron was the main attraction.

With a team that had been beaten out by the Winnipex, the

Winnipex was an easy target.

# LES CANADIENS CLING TO LEAD

**ARSENAL WINS  
TO TAKE LEAD  
ENGLISH LOOP**

**GUNNERS BEAT HUDDERSFIELD  
BY 1-0 COUNT—SPURS  
ARE DEFEATED**

LONDON, Nov. 27.—The Arsenal, tenth in the division, Sunday night trounced the Gunners, 1-0, to clinch the division of the English Football League. The Gunners got on top in the first half, but Huddersfield Town, before a crowd of 20,000 persons, while the cathedral led, London, Holgate, absorbed a defeat.

A crowd of 42,000 at the Hippodrome, Saturday night, trounced 2-1 by Derby County, one of the latter's goals being extremely well taken, so as to leave the Spurs a single point behind Arsenal, while Huddersfield claimed third.

All the third division clubs, of both sections, were engaged in the first round of the Amateur Cup Saturday, with the exception of three. In the cup battles there were no less than a few, although Rotherham was knocked out of competition by the little-regarded Sutton United.

**THRILLING GAME**  
The first half of the battle at Huddersfield was thrilling. Marshall headed in a goal for the home side, but it was disallowed. Duncane scored for Arsenal on a corner by Bastien, who had been sent off for attack until half time. There was no scoring in the second half.

The Spur's last goal came at the outset of the match with Derby County. Within four minutes of the start, Marshall scored his second, but it was ruled out. Nichols in the Spur's nets, allowing it to go in over his hand.

After an interval the teams fell to settle down. Nichols beat away a clearing shot from Duncan and, however, was unable to score on the rebound. O'Callaghan scored the Spur's only goal two minutes later.

Plenty of excitement ensued at Grimsby, where the local XI trounced Hull, 2-0, in their first undisputed leadership of the Second Division. Both goals showed good work, the first being a fine example of defensive blunders to score for Hull. Glover and Gravins scored and, with the other players both failed, Hedges and Glazier repaid in the closing minutes.

**MOTHERWELL IS  
STILL UNBEATEN**

GLASGOW, Scotland, Nov. 27.—For the fourth consecutive game the first-handered Scottish football league matched Saturday, but did not prevent Motherwell from keeping its undefeated record intact. Meeting the lowly St. Mirren eleven, Motherwell put up its best performance in the lead of the first division. Fettercairn scored the only goal of the game.

McPhail had a brace of goals and Smith added one for Glasgow Rangers defeated Falkirk, 3-1. The win kept the league champions three games ahead of Motherwell. Alexander, Ayr, which both played its game to maintain their deadlock for third position.

**VARSITY STADIUM,** Toronto, Nov. 27.—Ontario Agricultural Queen, 27, the Canadian intermediate intercollegiate football title for the second straight time, has been awarded to the University of Guelph, Ontario, by 28-1 in the sudden-death final.

McPhail had a brace of goals and Smith added one for Glasgow Rangers defeated Falkirk, 3-1. The win kept the league champions three games ahead of Motherwell. Alexander, Ayr, which both played its game to maintain their deadlock for third position.

## Out of His Shell

Out of retirement will come Bobby Jones, the master golfer, to do a comeback in one tournament—and his last—next year. Jones is to stage on his own golf course in Augusta, Ga., an invitational open in which he greatest pros and amateurs of the world will play. The date is March 22-25 and it will be Bobby's first start since his voluntary retirement in 1930.

The second Sunday-night fixture at Chicago ended in a 1-0 win for the Blackheads over Boston Bruins.

## Flying Frenchmen Break Even In Two Week-end Contests

**BIGGEST CROWD IN TWO YEARS JAM CHICAGO AUDITORIUM  
TO SEE BLACKHEADS HUMBLE BOSTON BRUINS**

**By Score of 1 to 0.**

Breaking even in the week-end games, Montreal Canadiens are still sitting safely in the top of the Canadian section of the National Hockey League. The Frenchmen scored a 1-0 win over Toronto Maple Leafs at Toronto, Saturday night, and moved on to Detroit, Sunday night, to play the Red Wings.

Another Saturday night game saw the lowly Montreal Maroons, one life and death New York team, and the Ottawa Senators, both in action, took a 3-2 loss at Ottawa from the New York Americans. The Montreal game pulled Maroons out of the tail-end position and dropped the Amerks into the cellar.

The second Sunday-night fixture at Chicago ended in a 1-0 win for the Blackheads over Boston Bruins.

### CHABOT MAKES TORONTO "LIKE IT"

TORONTO, Nov. 27.—They used to say any goaltender could build up a good record if he had a good team. Chabot, the tall, dark-haired, raw-boned puck stopper, has done just that. He has recorded during his years in the Toronto nets, held a higher local record than any other player in Leaf history.

While a crowd of 10,000 at the Hippodrome, Saturday night, the Maroons, one of the National Hockey League season here, cheered on the Leaf's keepers, then beat them. The Leaf's, however, had to pay the price. Chabot, who set out his old mates Saturday night

and Canadiens of Montreal scored a 1-0 triumph.

It was the first defeat of the campaign for the Leaf. It was Chabot's third shutout. Victory in created Canadiens lead in the Canadian section to three points over Detroit.

Bourque scored the lone can goal in the 10th minute of the first period from the point from Phil Leguine's shot.

Canadian players made a present to the Maroons before the game in Hainsworth's net. The Bruins were doing the same to the Leaf's.

The Bruins made a temporary stand, however, by getting a goal and sending men down the ice in the closing period.

The Bruins won the game, but the Bruins' wins streak of three

## MINES FAIL TO HOLD UP TREND

TORONTO, Nov. 27—Tendency was towards firmness in the last hour of trading today on the Standard and other metal exchanges while the last turn was weak. Sunday gold and base metal shares recorded losses up to \$2.00. But these were reduced in the late pickup.
